

Registration Policy Update for Aquatic Programs

District Residents will have priority for open enrollment sessions.

November 1, 2023 - Due to the high demand for swim lessons at Si View Pool, the District's registration policy has been updated to include District resident priority registration period for open enrollment sessions. This update was adopted by the Si View Parks Commission in October 2023 and will go in effect with first open enrollment session for 2024 aquatic programs. Registration for session A opens on December 15, 2023. Priority registration for residents will begin at 7:00AM and open enrollment begins at 12:00PM. This policy update applies to all registration-based aquatics programs including group and private swim lessons, swim team and water safety courses. Drop-in activities are not affected.

How will the registration process change?

During open aquatic program enrollment sessions, Si View District residents will have a priority registration period before registration opens to the public. Open enrollment sessions are an excellent time for new students to join aquatic programs. Dates and times for registration periods are announced in the seasonal activity guide and on our [website](#).

Si View Pool has three open enrollment sessions each year:

- In December for session A lessons,
- In May for session E, F, and the weeklong summer lessons,
- And in August for session G.

Priority registration sessions for currently enrolled students include:

- Session B: For students enrolled in session A
- Session C: For students enrolled in session B
- Session D: For students enrolled in session C
- Session H: For students enrolled in session G
- Session I: For students enrolled in session H

Si View Pool will continue the current practice of offering priority registration times for currently enrolled students to ensure participants have an opportunity to complete a learning level, regardless of residency status. New students may also join these sessions, if space is available. Dates and times for registration are announced in the seasonal activity guide and on our [website](#).

How can residency status be verified?

To determine whether a residence is within the Park District, the boundary map can be viewed [here](#). Si View registration system assigns residency status based on the physical address associated with the customer account. District residents must have physical address on file to access priority registration. If a PO Box was previously provided, physical address must be added to access resident priority registration. Updating address information is the customer's responsibility. Please contact Si View team at (425) 831-1900 or email info@siviewpark.org to update your address information on file. Proof of residency such as a driver's license or utility bill, may be required. Account holders may also update their address online by logging in to the Si View [registration platform](#). Address updates must be completed by December 14th to access priority registration for session A.

More information

In addition to reviewing information available on our [website](#) and in the seasonal activity guide, subscription based Si View's [E-News](#) is a valuable resource for timely updates. Contact Si View team with questions by email info@siviewpark.org or call the District office at (425) 831-1900.
